### SUMMONS.

IN THE DISTRICT COURT OF THE STATE  
of Nevada, in and for the county of Washoe.  
The State of Nevada sends to Paul Willott,  
Defendant: You are hereby required to appear  
in an action commenced against you as defend-  
ant, by Mary Elizabeth Willott, as plaintiff, in  
the District Court of the State of Nevada, in and  
for the county of Washoe, and answer the com-  
plaint therein within ten days after the service  
on you of this summons, (exclusive of the day  
of service), if served in said county, or twenty  
days if served out of said county, but within  
said district, and in all other cases forty days,  
or judgment by default will be taken against  
you according to the prayer of said complaint.  
The said action is brought to recover a divorce  
from the bonds of matrimony existing between  
you and plaintiff, and for the custody of your  
and her minor children, viz.: Albert T., aged  
13; Mary T., 10; Robert B., Ann, 7, and George  
3 years; on grounds alleged of your willful  
desertion of her one year; of your habitual  
drunkenness contracted since marriage with  
her, incapacitating you from contributing your  
share to the support of her and your family,  
extreme cruelty on your part to her, and  
your neglect to provide the common  
necessities for her and your family,  
where such neglect was not the result of pov-  
erty on your part which you could not have  
avoided by ordinary industry, for one year and  
more; that you are harsh and of evil man-  
ners and example to your children, unfit to have  
custody of your children, and she is fit and  
proper to be their custodian, that you and she  
were married the 15th day of March, 1874, and  
that she has resided six months and more be-  
fore the commencement of this suit in Washoe  
county, State of Nevada all of which will more  
fully appear from the complaint which is on file  
in the office of the Clerk of said Court at Reno,  
in said county, and to which you are especially  
referred. And you are further notified, that if  
you fail to appear and answer said complaint  
the said plaintiff will apply to the Court for  
the relief demanded.  
In testimony whereof, I have hereunto set my  
hand this 6th day of July, 1888.  
J. E. HAYDON,  
Plaintiff's Attorney.

NATIONAL

Republican Ticket.

FOR PRESIDENT,

BENJAMIN HARRISON

OF INDIANA.

FOR VICE-PRESIDENT

LEVI P. MORTON,

OF NEW YORK.

A WORREY NOMINATION.

The California Republicans have nominated Judge W. H. Beatty, of Sacramento, for Chief Justice of the Supreme Court. Such action deserves more than passing commendation. It should evoke the most unbounded admiration for the Republican party of that State, exhibiting, as it does, the earnest desire of that party to place its best men to the front. For twelve years Judge Beatty was on the Supreme Bench of Nevada, and for four years Chief Justice of the Court. He was the greatest of all our Judges. Able, upright and conscientious, his decisions were the law, and Justice was completely exemplified. There never was a more honest Judge on any bench in the United States, and Judge Beatty is eminently qualified to preside in the Supreme Court of the country. California may well be congratulated upon being favored by the Republican party with such a model candidate and the JOURNAL trusts his majority will be an emphatic declaration of gratefulness.

Chief Justice Fuller has decided to lease the Washington house of A. T. Carber, the wealthy contractor. The house is the handsomest pile of stones in Washington. It stands on the head of Fourteenth street and commands not only a view of the city, but of the winding Potomac away down as far as Alexandria. Almost immediately opposite is the residence of Associate Justice Harlan, whom the Chief Justice is now visiting. Mrs. Fuller is a successful hostess, and has the valuable aid of eight well educated daughters.

Representative McKinley has decided to accept the invitation of the Chatqua Society of Atlanta, Ga., to address them during the present meeting. Senator Brown presented the formal invitation to Mr. McKinley, and added his own earnest request that he would accept it. The Ohio Congressman will make the industries of the South and their development the subject of his address, and will leave it to the people of Atlanta to fix the date.

Other desertions from the Democratic ranks in Brooklyn follow close upon that of Charles S. Higgins. Henry M. Birkett, a leading Democratic lawyer in the Greenpoint portion of the city, said: "A number of my friends and I have decided to form an anti-Cleveland anti-Gang club of business men and workingmen in the Seventeenth ward. It is utterly folly for a Democrat in Brooklyn to vote with the Democratic party under the present political regime."

A Democratic farmer of New York State, one of the vast army who are repudiating the Free-trade banner and going over to the flag of Protection, says: "You might as well look for wet ground with no rain as to look for high wages and high prices for manufactured goods and farm products with low tariff or Free Trade."

At Phillipsburg, N. J., there is quite a defection from Cleveland. Major A. J. Knub said that he had never voted any but the Democratic ticket, but that he did not intend to vote for Cleveland, and that he knew a good many old soldiers in that place who were of the same mind, because of Cleveland's pension vetoes.

Hundreds of Republican clubs will be at New York or represented in the grand reception to Blaine. Other civic and industrial bodies will also take part, and it is expected that 200,000 men will be in line. Chairman Pool says there will be strong delegations from Irish-American Associations.

Justice McKinstry, of the California Supreme Court, has concluded to resign, and accept the proffered professorship in Hastings' Law College. He has tendered his resignation to Governor Waterman, to take effect on October 1st.

General Sheridan's condition remains unchanged. His favorable symptoms continue.

The Oregon Press Association meets at Salem on the 10th of August.

DESERT LANDS.

The Senate Decides to Provide for a Preliminary Survey.

WASHINGTON, July 30.—In December last Senator Stewart introduced a bill to provide for the segregation of lands capable of irrigation from other lands and for setting apart locations for reservoirs and rights of way for ditches and canals for the purpose of irrigation. The bill was referred to the Committee on Public Lands and there smothered by Mr. Plumb, the chairman of the committee, who, it appears from his speech to-day, is opposed to irrigation, and also to the acquisition of any portion of the public lands in the Territories or any of the States west of Kansas by actual settlers. It is understood that the cattlemen of New Mexico, Wyoming and other sections agree with Mr. Plumb in this view of the question. Both are opposed to the acquisition of homes by settlers.

Stewart in February offered a resolution, which was passed by the Senate, calling on the Secretary of the Interior for the views of the department on this subject of irrigation, which drew out an exceedingly interesting communication, recommending the subject to the attention of Congress. About this time Senator Teller reported from the Committee on Public Lands a joint resolution, which passed Congress and became a law, requiring the Secretary of the Interior, through the Geological Survey, to investigate the subject of irrigation with a view to setting apart reservoir sites and the segregation of the irrigable lands.

Senator Stewart then offered a resolution, which was also passed, calling upon the Secretary of the Interior for an estimate of the amount necessary to be appropriated at this session of Congress to carry on the work. The Secretary replied, sending in an elaborate communication from Major Powell, director of the Geological Survey, recommending an appropriation of \$250,000, whereupon Senator Bowen, of Colorado, offered an amendment to the Sundry Civil appropriation providing that that sum be inserted in the bill for that purpose. Major Powell and Senators Stewart and Teller presented the case at several meetings before the Committee on Appropriations, but the committee refused to adopt the amendment.

To-day the matter came before the Senate on motion of Senator Bowen to insert the appropriation in the bill. Bowen sustained his amendment in a well-prepared written argument. Senator Stewart followed, advocating the amendment by a speech, in which he gave a general statement of the subject of irrigation and the great extent of country which could be made productive only by means of irrigation, and urged the necessity of immediate action to save the water of the great interior from monopoly and to secure in time reservations for reservoirs and the necessary hydraulic work. The amendment was opposed by Senators Allison, Dawes, Reagan, Beck and Plumb, and was supported by Senators Teller, Call, Jones, of Arkansas, Morgan, Voorhees and Manderson.

The opposition of Plumb was placed on such unreasonable grounds as to attract general attention and draw forth a sensational and severe rebuke from Senator Stewart. Senator Plumb contended that it was illegal to impound any portion of the waters of the Missouri river and its tributaries in the mountains, even in flood time, because by law riparian owners have a right to have it run in the river. He also contended that there was land enough in Kansas and other States in the Mississippi valley for the people at present, and that the land west of that section should be preserved for coming generations. He said he was opposed to attracting the attention of the people to the lands in the Territories. His last argument was not entirely new. It had been used by the stockmen for the purpose of keeping settlers out, but it is believed to be new in the United States Senate. Hitherto all the arguments in that chamber have been in favor of the settler.

Stewart referred to the arguments adduced by other Senators in favor of waiting until the Committee on Public Lands should form a plan for irrigation, and said it was now evident to the Senate that nothing could be expected from that committee. Plumb's eagerness to prevent settlement in the Territories was turned to account, and after five hours' argument the amendment was adopted appropriating \$250,000, by a yea and nay vote of 29 to 18.

A Massachusetts workingman said recently to a Boston reporter: "It's a fool that sticks to a mistake when he finds it out. I've voted with the Democrats twenty-five years, but hereafter I vote where my best interests lie."

The Tuscara Times-Review says: The Ward Comedy Company made their first appearance before the Tuscara public last evening in the play of "Inshavogue." The audience was large, the acting good, and all who attended were well pleased. The company will appear again this evening in the play of "The Red Fox," when we predict another crowded house.

THE TARIFF OUTLOOK.

Prospect of a Republican Bill Passing Both Houses.

WASHINGTON, July 30.—The Republican Senators having charge of the preparation of the tariff bill have been making a quiet canvass of the House, with a view of ascertaining the voting strength the bill can secure there. The canvass has been going on for several days—ever since, in fact, the conference decided finally to have a bill. The result so far has been highly encouraging, and has been something already of an agreeable surprise to the gentlemen having it in charge.

From what has already been learned, the hope is expressed by a member of the Senate Tariff Committee that the Senate can send such a bill through and over to the House that the Republicans there can, with the aid of a dozed Democrats, pass it and cheat the Democrats out of their own game. The Democratic majority in the House is about fifteen, and some of these are only such in name, and would vote of necessity with the Republicans on the tariff question. The Mills bill passed by a majority of thirteen only.

There are in the House a number of Representatives from tobacco-growing States who would have to support the Senate bill if it contained a provision wiping out the internal revenue tax on tobacco. This is first what they asked the Democrats of the Ways and Means Committee to do, and they could not refuse to vote for a Republican measure which contained just what their constituents demand. Consequently their votes can be counted on to pass the bill.

When the bill is taken up in the Senate it will be made the continuous order from day to day until finally disposed of.

THE THIRD PARTY GOING TO PIECES.

Prohibition Candidates in Wisconsin Refuse to Remain on the Ticket.

MADISON, Wis., July 27.—The Rev. T. H. Dahle, of Stoughton, peremptorily declines to remain on the Prohibition ticket as candidate for Lieutenant Governor, and D. O. Prescott, of Marinette, refuses to stand as the candidate for State Treasurer. L. W. Hoyt, of Madison, has been placed on the ticket in place of Mr. Prescott. The disintegration of the third party in this State has apparently commenced. Chris Carlson, of Eau Claire, will make the race for Lieutenant Governor. The names of the victims were ruthlessly added to the ticket by the State Central Committee.

SAN DIEGO'S GROWTH.

The Assessment Has More Than Doubled in a Year.

SAN DIEGO, July 30.—The assessment roll of San Diego county was completed late Saturday night by Assessor J. M. Asher, and the Board of Supervisors is sitting as a Board of Equalization to-day. The report is an interesting document, showing, as it does, the wonderful effect of the Southern California boom. The total valuation for 1888 is \$38,670,778, more than double that of 1887, which was \$18,737,134. Of the total for this year only \$4,670,000 is affected by mortgages, or only about \$1 of mortgage to \$19 of assessed valuation. This is a remarkable showing. The figures speak for themselves in regard to the oft-told story of the bursted boom of this end of the State.

Scores of Desertions from Democratic Ranks.

PITTSBURG, Pa., July 27.—Major Klinedinst, of McKeesport, has declined the Democratic nomination for Congress in the Twenty-fourth District. He says he cannot support free trade and predict the defeat of any Democrat who does. He will vote for Harrison. Ex-Judge Burton, of Monongahela City, has flopped to the Republicans on the same ground. Twenty-two Democrats at Beverly, W. Va., have come out for Harrison and protection. Mayor Samuel Murray, of New Cumberland, same State, deserted Grover to-day. In addition to these several important conversions are reported in Ohio. Harrison's majority in Pennsylvania will not fall short of 100,000.

True to Their Colors.

LOCKPORT (N. Y.), July 30th.—In the campaign of 1840 the Freeman family (the father and nine sons) polled eight votes for Harrison. This year the nine sons, the youngest aged 60, will all vote for Harrison and Morton.

A Prominent Democrat Renounces His Party.

BUFFALO, N. Y., July 27.—Vedder O. Reynold, Chairman of the Democratic County Committee, of Cattaraugus county, renounced his party at a Harrison meeting at Salamanca to-night.

The free-wool clause embodies the most important provision of the Mills bill, and if it contained nothing else this would be sufficient to make the issue between the principle of Protection and the principle of Free Trade.—Harry George.

REPUBLICAN CAMPAIGN LITERATURE.

A Campaign Book and Some Other Interesting Documents to Be Issued.

WASHINGTON, D. C., July 27.—The Republican campaign book will be issued in a few days. A portion of the copy is in the hands of the printers. It will contain the platforms of the parties, comparative notes, and a history of the Republican and Democratic parties, together with recent votes in Congress on political questions. A large portion of the book will be devoted to a comparison of policies pursued by Republican Presidents with those of Mr. Cleveland. In this connection the Democratic inconsistencies in regard to civil service reform, financial and land policies, and other things will be exposed. Supplementary to the year book the Congressional Campaign Committee will distribute a large number of special documents, in addition to speeches on the tariff, fisheries, pensions, and other questions. One of these documents will give a history of the Democratic land policy and will show that at no time, either before or since the war was it in the interest of the people. Another document will discuss pensions and the Democratic record in regard to them. The Democrats have started a "literary" campaign of which they will grow weary before it is over.

PROFITABLE CHICKS.

A Canadian's Hens Scratch Up Four Thousand Dollars.

MONTREAL, July 30th.—Louis Sicotte, a rich farmer of Coucherville, thirty miles distant from here, found that his chickens, while searching for food, had unearthed hidden treasure, and soon picked up a handful of money, the pieces being of French, Mexican and American coinage, not dated later than 1837, and some as early as 1726.

It is thought that the money must have been buried during the trouble of 1837. The then proprietor of the land was a brother of Louis Hyppolite la Fontaine. He was a well-to-do Canadian, and doubtless, fearing pillage during the rebellion, deposited the sum discovered. Another theory is that, in accordance with an old custom, the farmer's money had been buried instead of banked. Sicotte found he had twenty-five pounds weight of money, valued at \$4,000.

MISDIRECTED SYMPATHY.

Sheridan Pestered With All Kinds of Cure-Alls.

NONQUIT, Mass., July 30.—Every day brings to Nonquit a miscellaneous collection of patent medicine, cure-alls and letters of advice, and all are warranted to cure General Sheridan forthwith. Patent medicine and mineral-water cranks have sent stuff enough to stock a country drug-store. All parts of the country and nearly every State and Territory are represented in the collection. California is specially well represented, and Texas sends its share, while cranks in the immediate vicinity are frequently heard from. Of course none of this stuff is given the General, and the most is at once thrown away. Every mail also brings letters of advice, and one or two have been received from doctors of repute, giving some well-merited information that they might apply, but most contain neither sense nor reason.

A \$50,000 Horse.

LEXINGTON, Ky., July 31.—The sale of Bell Boy at the farm of T. G. Jefferson to-day, drew a large crowd of turfmen from all sections of the country, including David Bonner, of New York; C. C. Seaman, of San Diego, Cal.; J. C. Clark, of Elmira, N. Y.; Simon Gross and Phil Grist, of Boston. The bidding was started by J. S. Clark at \$20,000, followed by Seaman at \$21,000. These were the only bidders, and when \$49,100 was bid, Clark quit, Seaman bidding \$50,000, which is the highest price ever paid for a horse in the world.

DEMOCRACY IN 1866 AND IN 1888.—The Democratic platform of 1866 said: The time has come for the people of the United States to declare themselves in favor of progressive Free Trade throughout the world.

The Democratic party is just as much in favor of this doctrine now as it was then, but it hasn't got the nerve to say so when there's a workingman around.

NEW TO-DAY.

BREVITIES

Thirteen prisoners in jail.  
Supt. Dovey returned from California yesterday.  
Elegant slippers at Tassell Bros.' boot and shoe store.  
B. F. Leste says he is a candidate for the State Senate.  
V. H. Pease, the mail contractor, was in town yesterday.  
Isadore Lieve, of San Francisco, was in town yesterday.  
Candidates should let the people know what they are after.  
Hale & Norcross declared a dividend yesterday of 50 cents per share.  
Can't Washoe county make an exhibit at the California State Fair?  
The front of Chase & Church's place is to be freshly painted by Updike.  
Jack Fraser is building a sausage factory room in the rear of his butcher shop.  
The "Tremont" is the new name given Mrs. Jones' hotel on the north side of the track.  
Senator Foley came up from the Bay yesterday morning, and departed for Eureka last night.  
Reno should not lose any time in providing two or three public parks. Valuable time has already been lost.  
Glendale ranchers report quite a frost in that section Monday night, and considerable damage to the potato crop.  
Dr. Thoma has about all the practice he can well attend to. His services are in demand because he is a first-class physician.  
Coleman & Gebhardt have dissolved partnership, the former having sold his interest, and thinks of engaging in some other business.  
Five watermelons and muskmelons at Berry & Novacovich's, and in fact everything nice in the grocery, fish, fruit and vegetable line.  
Wallace & Peers deal in all kinds of groceries and provisions. Patrons will find No. 1 goods, low prices, and courteous treatment at their store.  
The carpenters are now at work on the Wm. Tell House annex. Tomamichel will have one of the best bricks in town when the job is completed.  
The Electric Light Co. contemplates changing to the old English Mill, where the water from the Auburn Mill ditch would insure them ample motive power.  
A draft of forty-five men was made last Saturday from Chollar and Potosi. They have been working about 130 men in these mines, two-thirds of whom were in Chollar.  
J. B. Francis is adding many new attractions to the Wieland saloon. But the lunch and beer still hold a warm place in the hearts and stomachs of his customers.  
H. J. Pratt says his hay crop on the Little Humboldt is fully up to the average of former years. He has just completed harvesting it, and is well satisfied with the yield.  
The "Two Johns" had a fair audience last night, but deserved a larger crowd. The comical situations presented amused all present, and the evening's entertainment was quite a success.  
The front of the Pawning building on Virginia street is conceded the most handsome one of any building in Reno. But there are more improvements to be made, which will materially add to its beauty.  
H. J. Theiss, of Lovelock, was in Reno yesterday. The farmers have commenced cutting the second crop of alfalfa, and the Meadows will produce more hay than it did last year. A thousand acres put in last year will be cut this.  
During a recent visit to Cincinnati a Journal representative met Charley Pegg, formerly Sheriff of this county. Charley piled question after question about all the old-timers, and expressed satisfaction at the growth of Reno. He may pay the old stamping ground a visit next year.  
Recently there has been considerable of a reduction in railroad fares to the East, and many people will avail themselves of the opportunity to travel. The new rates went into effect yesterday. The fare to Missouri river points and return is \$80—a reduction of about \$40. To Mississippi river points and return, \$92; to St. Paul and return \$105.  
The Carson Mint will get the regular appropriation of \$114,500, thanks to Senator Stewart. Had only \$44,000 been provided, the Mint would have been shut up in less than six months. Even now there is no certainty that the Director will expend the appropriation, for there was a full appropriation made a year ago, but it was never used.

MEADOW LAKE.

Expected Revival of Mining in a Once Thriving District.  
A Cisco dispatch, of July 30th, says: A. W. Grove arrived to-day from Meadow Lake with a thirty-ounce bar of gold, valued at \$580, being the result of a partial clean-up in the old Excelsior mine in Meadow Lake Mining District, Nevada county. The ores in this district contain a great deal of base metal, and have defied the efforts of mining experts to produce paying results in the past twenty years. The process by which the above results were obtained is the invention of F. Morris.  
The lessors of the mine are highly elated with the result. This news will be of great interest to all who own mines in the district, and there is a probability that in the near future Meadow Lake will be a lively mining camp.  
THE CALEDONIA PICNIC.  
A Piper in Full Highland Costume One of the Attractions.  
A Piper in full Highland costume, fresh from the "banks and braes of bonnie Doon," will be one of the novel attractions at the Caledonia picnic in Trendway's Park next Saturday. From the extensive preparations in progress it is safe to predict that the coming picnic will surpass all former annual outings of the Caledonians—not only in the variety of entertaining games, elegance and number of prizes offered the contestants, but in the attendance, which promises to surpass that of any former year.  
A FORMER RENOVATOR'S HOME.—The Placerville Observer, of July 31st, has the annexed item of interest to the Reno friends of the gentleman mentioned:  
A visit to the handsome residence of W. H. H. Fellows, would astonish any one who had looked at the place two years ago and now. Then it was apparently a bed room, now it is covered with the rankest vegetation. Potatoes, turnips, squashes, watermelons, cantaloupes, tomatoes, pears, beans, sweet corn over ten feet high, grape vines and a variety of fruit trees. One of the attractive features of the place is a beautiful flower garden, all growing in a most luxuriant manner, showing what a little industry and thorough cultivation will do. Less than two years ago his place was sold for \$375, now \$2,000 is offered for it. It contains about two acres. The residence is surrounded with all modern conveniences and a fine well of pure, cold water. Also a fine poultry yard with convenient houses, well stocked with fine fowl. The place is situated on an eminence from which a fine view can be had of almost the entire city of Placerville and surrounding country. It has an entrance on the north from Bedford Avenue, and on the south, leading from the entrance on Union street, is an avenue leading to the residence. During the short time this place has been occupied by Mr. Fellows, it has been changed from an apparent barren waste into a beautiful home.  
DELAYED.—Principal Brown informs the JOURNAL that the Senate bill which provided a Military Instructor for the Nevada State University, among many others, has been temporarily defeated by the House, because loaded down with amendments for other sections and other things, and so much time consumed in the consideration of the Senate bill, that no vote was taken, and it lost its right of way, and may not be reached again this session. This is unfortunate, but the JOURNAL hopes the bill may yet become a law.  
DEAD CARR.—The Silver State says that the carp which left the Humboldt river and made their way up a small stream to the pond of warm water near Golconda have all died. They withstood the warm water during the cold weather, but the sun in the last two or three weeks has increased the temperature of the pond, and they succumbed to the heat. Some of them actually left the water and went into the grass and trees, which surround it, where they perished.  
THE WARD ENGAGEMENT.—Next Monday evening the Irish comedian, James M. Ward, and the Comstock favorite, Miss Carrie Clark Ward, open a two nights' engagement at the Opera House. There will be a change of programme presented each evening. The plays to be produced are the latest and most successful Irish dramas now on the stage. The stars will be supported by a strong company.  
ANOTHER ADDITION.—The Burke Bros. have commenced work for Sunderland on the brick addition to his building. It runs back from the clothing store and will be two stories, and when completed will be used as an adjunct to the clothing store, and for a work shop for the shoe store. It will also give him five new rooms up stairs, and greatly add to the appearance and convenience of the entire building.  
The large half-medium Gordon job press of the JOURNAL office is being repaired.  
The Only Perfect Remedy For habitual constipation, dyspepsia and kindred ills is the famous California liquid fruit remedy, Syrup of Figs. It is easily taken, and perfectly harmless. Sold by Wm. Pinniger, Reno.

INGERSOLL'S TRIBUTE TO A FRIEND.

The Eloquent Free-Thinker's Address Over the Remains of Courtland Palmer.  
At the funeral services of his late friend Courtland Palmer, of New York, the robust champion of free thought spoke as follows:  
My friends, a thinker of pure thoughts, a speaker of brave words, a doer of generous deeds has reached the silent haven that all the dead have reached and where the voyage of every life must end. We, his friends, hastening after him, are met to do the last kind acts of man to man, to tell his virtues and to lay his ashes in their place of rest and peace.  
Some one has said, "In the open hands of death men only find what they have given away." Let us believe that good deeds, brave thoughts, have endless fruit. Let us believe that a noble, self-denying life enlarges the moral life of man and assures a future grander than the past. In the monotony of subservience there is nothing grander than a free and independent man, who gives and asks reasons, who demands freedom, who refuses to be slave or master. Such a man was Courtland Palmer. He was an honest man. He granted the same rights which he so stoutly claimed. To think the thought he believed and to help others was his life. He preserved the realm of mind from brute force and protected the children of brain from the Herod of authority. No error was old enough, plausible enough, or profitable enough to stay him or to keep his conscience still. He knew that next to honest truth was honest search for truth. He believed in the chivalry of discussion, and held that they who question should answer, and the striving of men should be, not for victory over one's fellowmen, but for truth. He knew that truth feared not investigation, that its enemies are egotism, hypocrisy, fear and darkness, and that integrity, self-denial, honesty, courage and light are its friends. He believed in the morality of the useful, and that what a man sows that shall be reap. In Auguste Comte he found the framework of his creed. He found rest, serenity and the certainty he sought. He saw that the old creeds were naught but man's struggles toward light.  
To add knowledge to one's own mind and be the bearer of it to others was his ideal. This is the religion of duty, perfect—a religion without mystery, a religion understood by the head and approved by the heart. To develop the human race by legitimate means, teaching each one to live for all—this is the gospel of man, the light of this world, the religion of humanity.  
He denied the supernatural, the ghosts and shadows that fill the twilight land of fear. The religion of hope was his, which has reason for its guide, happiness as its end, intelligence as the means. Man is the providence of man, and with him it was not religion and science, but the religion of science, a religion which drives monsters from the mind, wolves of want from homes, and from every brain the night of ignorance.  
He lived for his fellow-men. He sided with the weak and poor against the strong and rich. His soul was eager for the light, and his face was set ever to the east.  
The world was his country; to do good his religion. No other creed exists. A heart breaks, a man dies, a leaf in the heart of an unexplored forest flutters to the earth, a babe is born, and—the great world sweeps on.  
No one can tell which is better—life, with its thrill, its eager vitality, and its Golgotha; or death, with its peace and rest, its cool and placid brow, which keeps no memory of pain or woe.  
Farewell, dear friend. The world is better for your life, the world is braver for your death. Farewell; we loved you living, and we love you now.  
A Leader in a Good Cause.  
The Enterprise editorially remarks: Tom Julien is a candidate for re-election as County Clerk of Washoe county, and should have but little opposition. Washoe is a lively county, and an idea of the character of its people may be gathered by strangers who find such a man as Tom Julien in the Clerk's office. Mr. Julien is not alone a good clerk; he is a lawyer, speaker and clear-headed, sincere politician, who is able to see what is right and courageous enough to insist on following the course marked out by principle. The Republican party of Nevada set the example of adopting a thoroughly American protective plank and recent events have shown the wisdom of a fearless expression of opinion. Now everybody is rushing to the front, and since the disclosure made before the Congressional Committee all will next time take a stand where only the Republicans of Nevada dared take the lead, and Mr. Julien is one of those to whom the thanks of the party are due for placing it and its candidates on ground for which former timid politicians are now scrambling in their efforts to obtain an early foothold. When the few short-sighted, weak-kneed politicians who sought to avert the convention by the familiar "policy," Messrs. Julien and Haines made themselves heard so effectively that by an overwhelming vote the Republicans of Nevada placed themselves in the lead on the national issue of true Americanism. They did not look for policy; they sought the right, and State pride will in future refer to the Winnemucca convention as the first official party announcement of the issue. As one of the prominent and able leaders in the movement, Mr. Julien deserves well of the county which claims him as a citizen.

AFTER WATER.—The Carson Tribune says:

The ranch owners of Douglas county are awakening to the necessity of prospecting for water and already a joint stock company has been formed and a sufficient amount subscribed to commence operations. Mr. Henry Pulstone, of Jacks Valley, realizing that the Tribune was right in its statement that wherever grass grew in a ravine east of hills running from Carson City clear to Sheridan, water can be obtained by tunneling, went to work and ran a tunnel into the ravine west of his ranch and has from it a sufficient flow to irrigate his home garden and vegetable patches, and by running further into the hill and making a reservoir will have enough water for his home ranch. The artesian well boring process is to be tried by the company and doubtless that will lead to a general tunneling of the hills, and what is best of all is the fact that the present action of the ranchers is indicative of the fact that legislation in matters of irrigation will be demanded and no one who is not bound to do all in his power to forward such needed improvements can have the support of the ranchers in the western part of Nevada.  
The Carson Tribune, of Monday evening, says:  
General Irish came up from Reno yesterday and went on to the Comstock. It need surprise no one to find the General voting for Harrison this fall.  
Syrup of Figs  
Is Nature's own true laxative. It is the most easily taken, and the most effective remedy known to cleanse the System when Bilious or Costive; to dislodge Headaches, Cold and Fevers; to Cure Habitual Constipation, Indigestion, Piles, etc. Manufactured only by the California Fig Syrup Company, San Francisco, Cal. Sold by Wm. Pinniger, Reno.  
An Explanation.  
What is this "nervous trouble" with which so many seem now to be afflicted? If you will remember a few years ago the word malaria was comparatively unknown,—to-day it is as common as any word in the English language, yet this word covers only the meaning of another word used by our forefathers in times past. So it is with nervous diseases, as they and malaria are intended to cover what our grandfathers called biliousness, and all are caused by troubles that arise from a diseased condition of the liver which, in performing its functions, finding it cannot dispose of the bile through the ordinary channel is compelled to pass it off through the system, causing nervous troubles, Malaria, Bilious Fever, etc. You who are suffering can well appreciate a cure. We recommend Green's August Flower. Its cures are marvelous.  
Advice to Mothers.  
Are you disturbed at night and broken of your rest by a sick child suffering and crying with pain of cutting teeth? If so, send at once and get a bottle of Mrs. Winslow's Soothing Syrup for Children Teething. Its value is incalculable. It will relieve the poor little sufferer immediately. Depend upon it, mothers, there is no mistake about it. It cures dysentery and diarrhoea, regulates the stomach and bowels, cures wind colic, softens the gums, reduces inflammation, and gives tone and energy to the whole system. Mrs. Winslow's Soothing Syrup for Children Teething is pleasant to the taste, and is the prescription of one of the oldest and best female nurses and physicians in the United States, and is for sale by all druggists throughout the world. Price 25 cents a bottle. feb. 21-sw f-ly

REMARKS AND CONDITIONS.

Nominations to stakes must be made to the Secretary on or before the 1st day of August, 1888. Entries for the purses must be made two days preceding the race, at the regular time for closing entries as designated by the rules. Those who have nominated in stakes must name to the Secretary in writing which they will start the day before the race, at 6 P. M. Horses entered in purses can only be drawn by the owner.

All horses entered for District purses must be owned and kept in Nevada and California, east of the Sierra Nevada, for six months prior to day of race.

Entries to all trotting races will close August 20th, with the Secretary.

Five or more to enter and three or more to start in all races for purses.

National Trotting Association rules to govern trotting races. Pacific Coast Blood Horse Association rules to govern running races, except as above.

All trotting and pacing races are the best three in five, unless otherwise specified, five to enter and three to start. But the Board reserves the right to hold a less number than five to fill, by the withdrawal of a proportionate amount of the purse. Entrance fee, 10 per cent. on purse, to accompany nomination.

National Trotting Association rules to govern trotting, but the Board reserves the right to hold two or any two classes alternately, if necessary to finish any day's racing, or to trot a special race. A horse making a walkover shall be entitled only to the entrance money paid in. When less than the required number of starters appear, they may contest for the entrance money, to be divided as follows, 66 2/3 to the first and 33 1/3 to the second.

Horses that discontinue the field will only take first money.

In all the foregoing stakes the declarations are void unless accompanied by the money.

Please observe that, in the above stakes, declarations are permitted for a small forfeit.

In all races a horse not declared out by 6 P. M. of the day preceding the race shall be required to start.

Where there is more than one entry by one person, or in one interest, the particular horse they are to start must be named by 6 P. M. of the day preceding the race. No added money paid for a walk-over.

Racing colors to be named in entries.

In trotting races drivers will be required to wear caps of distinct colors which must be named in their entries.

Each day's races will commence promptly at one o'clock P. M.

All entries must be directed to C. H. Stoddard, Secretary, Reno, Nevada.

The Humboldt County District Fair, at Carson City, begins September 24th and ends September 29th. Six days' racing; gives \$7,500 in purses and premiums, for particulars address J. D. Forrester, Secretary, Carson City.

The Humboldt County District Fair begins October 2d, and ends October 6th. Four days' racing, gives \$3,500 in purses and premiums; for particulars address Alex. Wis. Secretary, Winnemucca, Nevada.

The State Agricultural Society built a new track, located half a mile from the town of Reno, the soil being of such a character as to make it one of the best on the Pacific Coast.

PLATFORM AND SOLUTIONS.

The Republicans of the State of Nevada in convention assembled again express their loyalty to the principles of the Republican party, which have made the country so great and prosperous during the last quarter of a century.

Resolved, That the question of a sufficient supply of a circulating medium to maintain a permanent range of the price of labor and property is the most important political question awaiting solution by the American people.

Resolved, That a diminishing quantity of money reduces the price of labor and property increases the obligation of contract, enriches the creditor, impoverishes the debtor, and paralyzes industry and enterprise.

Resolved, That the present financial system of the United States, which increases or diminishes the circulating medium at the pleasure of the manipulators of the National banks, without regard to the increase of population or the wants of the people, and which recognizes gold alone as the standard of value, and places in the hands of the Treasury Department all the revenue of the Government to speculate with in bonds and loan to National banks without interest, is subversive of the rights of the people, oppressive, unjust, and should be repudiated.

Resolved, That a financial policy whereby both gold and silver shall form the basis of circulation, whether the money used by the people be coin, or in certificates redeemable in coin, or both, as convenience may require, is imperatively demanded.

Resolved, That the attempt to substitute National bank notes, costing the Government millions of dollars annually, for free silver, costing nothing, is an outrage upon the people; that the money ring or trust, which has usurped the sovereign power of the Government to issue money, and which has fraudulently demonetized silver and seized the revenues of the Government for private speculation, shocks the moral sense of the people and destroys respect for Government and law. We demand that this ring or trust be destroyed and equal rights restored to all people.

Resolved, That we charge that President Cleveland is the willing tool or agent of a powerful money ring which fattens the subsidies of Government and makes a mockery of the issue of its paper currency at the expense of the Government, borrows the revenues raised by taxation, and uses them without the payment of interest, contracts the currency to enhance the value of bonds, and enriches the usurers while it depresses the price of labor and property.

Resolved, That we favor the nomination of no man for President who is personally interested in National banks or the bonded indebtedness of the United States, but we demand a candidate who is free to do justice to all the people of the country—the poor as well as the rich.

Resolved, That the trickery of the President and his advisers by which they prevented a vote in the House of Representatives on the Bland Resolutions, and by which they secured the enactment of the Bland-Reserve Act, equals the villainy of the secret and fraudulent demonetization of silver in 1873.

Resolved, That we are in favor of the protection of home industry, and that the laborers of this country have a right to all the work required to supply the people of the United States, and that we are in favor of high wages in this country, and to that end will protect the workmen's competition with the cheap labor of other lands.

Resolved, That the policy of the Government should be inaugurated and established by the people through their representatives in both Houses of Congress, and not by the President or the money trust, of which he, either as agent or head, is most active in defending.

Resolved, That we charge President Cleveland with violating every promise he made in favor of civil service reform, with crippling the mail services, with refusing to sign necessary bills for the improvement of rivers and harbors, with using the power of his Administration to prevent appropriations for a navy and coast defenses, with attempting to destroy the protective tariff, with courting the good will of other nations at the expense of the citizens of the United States, and with joining the foreign bondholders to demonetize silver and destroy the industries of our country, and for the reduction of wages of the citizens of the United States for closing the Carson Mint when it was not only self-sustaining but a source of revenue to the Government, for its contemptuous veto of pension bills for the relief of disabled soldiers and sailors, and for failing to construct the Government building at Carson as required.

Resolved, That we are in favor of the absolute exclusion of Chinese, and the restriction of immigration, by which the present overcharged condition of the labor market is made worse, and also favor legislation by which a revision of our naturalization and land laws may be accomplished.

Resolved, That we demand, in behalf of our various industries, the retention of the duties on lead, borax, soda, hides and leather, and to restore the tariff of 1867 on wool.

Resolved, That we recognize the right of labor to organize for its lawful protection.

Resolved, That we favor the submission by the Legislature to the people of an amendment to the Constitution giving the Legislature the power to regulate the liquor traffic.

Resolved, That we favor liberal appropriations by Congress for harbors and coasts, and for the improvement of rivers and harbors, the building of defenses for our sea-coasts, the erection of public buildings, the creation of a navy the purchase of bonds and the repeal of the internal revenue laws taxing tobacco.

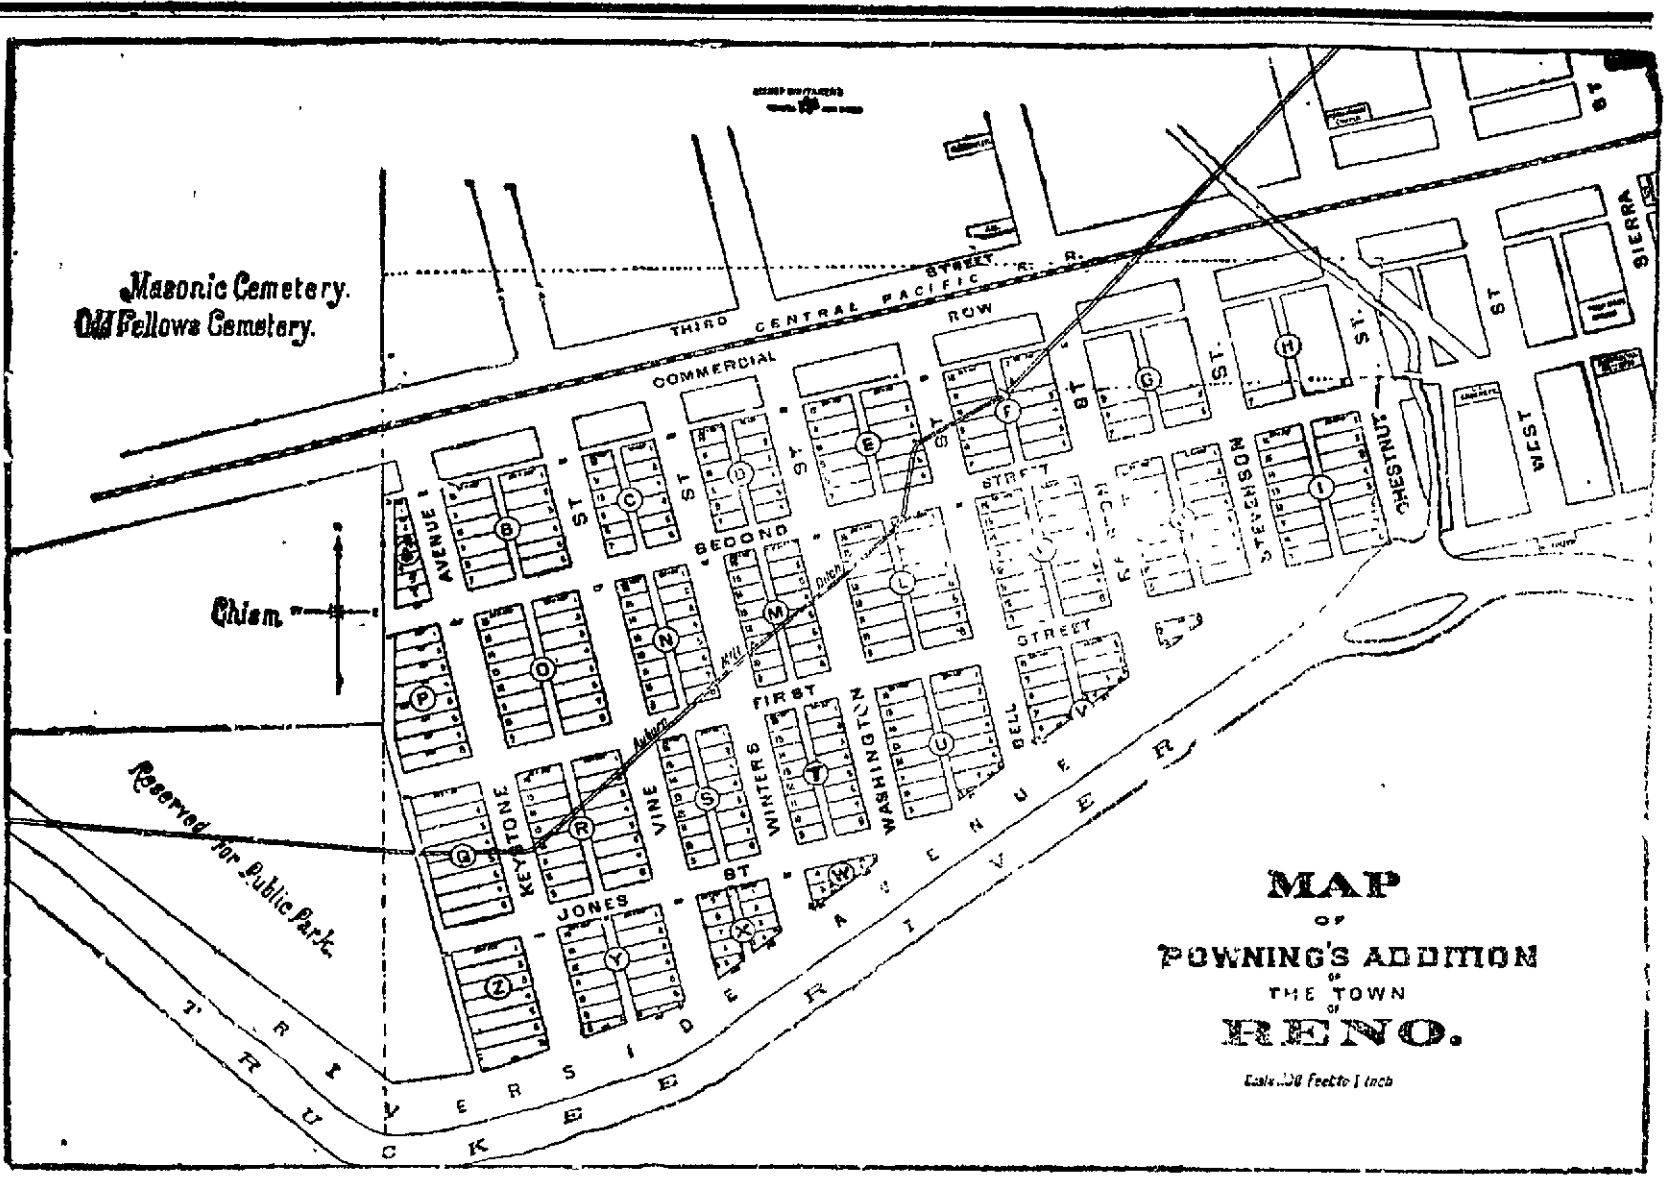

Resolved, That we favor the granting to Nevada of all Government land within the State for the purpose of providing means for irrigation and other improvements.

Resolved, That we favor the reduction of the Treasury surplus by the payment of pensions to Union soldiers, the improvement of rivers and harbors, the building of defenses for our sea-coasts, the erection of public buildings, the creation of a navy the purchase of bonds and the repeal of the internal revenue laws taxing tobacco.

Resolved, That it is the duty of the State to maintain free non-sectarian schools in the rural and sparsely settled districts as well as in towns and thickly settled sections, and that such a division of the school money should be made as will furnish the means of education to all children in the State.

Resolved, That we are in favor of re-opening the Carson Mint for coinage, and raising the wages of its employees to the standard paid by the last Republican Administration.

Resolved, That we demand the restoration of the mail service in this State to the efficiency maintained by the last Republican Administration, and favor the payment of fair wages to all postal employees.

# 250 Beautiful Lots For Sale!

## A RARE CHANCE FOR INVESTMENT AND A HOME

### THE MOST LOVELY PORTION OF RENO.

Facing the Truckee—The Aristocratic Riverside Avenue Driveway—Splendid Sewerage—Healthy Location and Safe From Fire.

The proprietor is now ready to receive proposals for lots in Powning's Addition. The map gives a good idea of the Tract, which is situated between the Central Pacific Railroad and the Truckee River, and commences on the west at a point three blocks distant from Virginia Street, making it the most central and convenient of any portion of the rapidly growing town of Reno. Unlike any other part of the town this Addition faces the beautiful Truckee River and Riverside Avenue is certain to become the fashionable driveway of the country. The streets are 80 feet wide, while Riverside and Keystone Avenues are intended to be 100 feet in width. All alleys are 20 feet wide. The soil is a rich gravelly loam, and susceptible of the highest state of cultivation. Being situated as it is it is more safe from fire than any other section. The regular lots are 50x140 feet. The sewerage is perfect.

Before Buying Elsewhere Parties will do Well to Look at These Lots.

RENO

Has no equal in Nevada or California for salubrity of climate, wealth of soil, diversity of products and stability. Situated in the very heart of the celebrated Truckee Meadows the future of Reno is assured. Reno is the City of Homes. There is not a house to rent in Reno. New buildings are occupied as fast as erected. Reno has advantages which no other town can equal. The climate is mild and genial in Winter, and even and healthful in Summer. There are no excessively heated or severely cold terms, and while the days may be warm in Summer the nights are deliciously cool; in Winter sleigh-riding is the exception and not the rule.

Facilities for irrigating surpass any in the State, and there is no failure of crops.

Reno has Churches of all denominations, Bishop Whitaker's School for Girls, Mt. St. Mary's Academy, the State University, and splendid Public Schools.

The Reno Water Co. furnishes ample pure, cold water for all purposes. The Reno Electric Light Co.'s electric light system, already well established, is being augmented. The Reno Gas Co. supplies gas for all purposes. The streets of Reno are lighted by electricity.

RENO

Reno's geographical position is excellent. It is on the line of the Central Pacific Railroad, only 154 miles from Sacramento, and 244 miles from San Francisco. It is the terminus of the Virginia and Truckee Railroad running south, and of the Nevada and California Railroad running north. It has two Flouring Mills, Planing Mills, three Nurseries, a Soap Factory, Reduction Works, and other industries. A great Woolen Mill and a Sash, Door, Blind and Box Factory, are about to be established.

Reno has the Bank of Nevada with \$300,000 capital, and the First National Bank with \$200,000 capital. It has two fine papers in the DAILY and WEEKLY NEVADA STATE JOURNAL and the Daily and Weekly Gazette.

Reno is the natural home of the Alfalfa, and therefore the great cattle headquarters of the State. Here are fed the prime beef for the California market. Reno potatoes are the best in the world, and she also excels in Strawberries and the small fruits. Reno Wheat took the first prize at the great New Orleans Exposition.

The State Fair is always held at Reno.

Reno is the County Seat of Washoe County, the wealthiest county in Nevada.
